Example 1: Radmik Solutions Sdn Bhd Professional Services

Agensi B memerlukan khidmat untuk proses migrasi 100 server fizikal pada EC2 di AWS secara 'lift and shift'. Pihak Radmik telah memberikan anggaran penggunaan 'mandays' sebanyak 40 hari bagi tugas-tugas konsultasi dan perlaksanaan.

Agency B requires services for the migration process of 100 physical services on EC2 in AWS by way of ‘lift and shift’. Radmik has provided an estimated ‘mandays’ of 40 days for consultation and implementation tasks.

Memandangkan jumlah hari yang diperlukan adalah melebih 30 hari, kadar caj yang digunakan adalah RM1,800 sehari.

Since the number of days required is more than 30 days, the charge rate used is RM1,800 per day.

Jumlah yang perlu dibayar adalah RM1,800.00 x 40 = RM72,000

The amount to be paid is RM1,800.00 x 40 = RM72,000
